INVITATION

HiPP Breakfast Symposium

in the context of the
54th Annual Meeting of ESPGHAN 2022

Friday, 24 June 2022

7:30 – 8:30 am

Auditorium 15

Bella Center Copenhagen

or online

hipp.com/hcp

AGENDA

Friday, 24 June 2022

Nutritional strategies to improve the gut microbiota in non-breastfed infants born by caesarean section

Chair: Metehan Özen, Turkey

7:30 – 7:40

Why do infants born by caesarean section have an unfavourable gut microbiota and why should we change that?

Metehan Özen, Turkey

7:40 – 8:00

Beneficial effects of the administration of *L. fermentum* CECT 5716 to infants delivered by caesarean section

Eduardo López-Huertas, Spain

8:00 – 8:30

Gut microbiota profiles associated with caesarean section influence the effects of a synbiotic infant formula early in life – data of a current randomized trial

Monika Schaubeck, Germany

A free breakfast is available for participants of the symposium.

The satellite symposium is held as part of the congress.
For admission to the congress area an admission pass is necessary.
